ANNUAL REPORT  
**2014**

## **Characteristics of the Growth Enterprise Market (“GEM”) of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”)**

**GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.**

**Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.**

*Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.*

*This report, for which the directors of Yunbo Digital Synergy Group Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM (“GEM Listing Rules”) of the Stock Exchange for the purpose of giving information with regard to the Company. The directors of the Company (the “Directors”), having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.*

# EXECUTIVE DIRECTOR'S STATEMENT

On behalf of the board (the "Board") of Directors, I hereby present the results of the Company and its subsidiaries (collectively the "Group") for the year ended 31 March 2014.

During the year ended 31 March 2014, the Group recorded a revenue of approximately HK\$36,572,000, representing a decrease of approximately 32% when compared with the last corresponding year. The significant decrease in revenue was principally due to a drop in the trading volume of Gigabit-Passive Optical Network ("G-PON") equipment in which the Group have generated revenue approximately HK\$5,523,000 during the year. Loss attributable to owners for the year ended 31 March 2014 was approximately HK\$10,481,000 as compared to a loss of approximately HK\$11,860,000 for the year ended 31 March 2013.

The general business and operating environment during the reporting period continues to be affected by the spillover effects of global economic conditions even for markets which historically have recorded high growth rates such as the market in the People's Republic of China ("PRC"). Although the overall momentum for the PRC market remains positive, slower macro-economic growth, and greater and more complex competition have made the telecommunications industry in the PRC more challenging.

When we assumed management control of the Company in early 2012, a new corporate strategy was adopted in hope of being able to broaden the Group's income base and strengthen its growth potential. In this regard, we steered the Company to focus on the telecommunications industry in the PRC market by concentrating our strengths on business and product development to trade high-tech software and hardware equipment; develop and establish online platforms to distribute mobile products and provide value-added services; and set up joint ventures with multinational companies to introduce and procure mobile application products and services, among others. To facilitate the Group's future business endeavors, we established 廣州韻博信息科技有限公司 (Guangzhou YBDS IT Co., Ltd.\*) ("Guangzhou YBDS") and 北京韻博港信息科技有限公司 (Beijing YBDS IT Co., Ltd.\*) ("Beijing Yunbo") in 2012, both of which are wholly foreign owned enterprises in the PRC.

To ensure the Company is financially stable with sufficient financial resources to implement our proposed projects, the Company, on 5 August 2013, allotted and issued 450,000,000 new shares to Happy On Holdings Limited ("Happy On"), the Group's single largest shareholder, raising net proceeds of about HK\$100 million. Immediately after the completion of the subscription, Happy On holds 987,888,771 shares of the Company, representing approximately 72.83% of the total issued share capital of the Company.

In spite of the ever challenging operating environment in the PRC, the Group has made great strides over the past two years in its business development. In the area of software deployment, the Company had teamed up with ChinaSoft International Limited (中軟國際有限公司) (stock code: 354) ("ChinaSoft"), and together we will submit a tender bid for specific parts of the Wireless City, a project sponsored and undertaken by China Mobile Group Guangdong Company Limited ("Guangdong Mobile"), a subsidiary of China Mobile Limited (stock code: 941) ("China Mobile"), which had been embarked on Wireless City in 2012 aspiring to develop and construct a wireless infrastructure network for PRC cities such that everyone in these cities will be able to have free Wi-Fi access.

The relationship between the Company and ChinaSoft will be strengthened through further collaborations as the two parties continue to work together in bidding for other projects sponsored by the PRC's telecommunications operators. In March 2014, the parties together submitted another tender for the construction of phase I of the unified payment system and for the contracted work relating to the repair and maintenance and operations of the Fetion (飛信) platform and its related social products and services offering.

## EXECUTIVE DIRECTOR'S STATEMENT

Predicated on the three principles of “centralization, standardization, unification”, China Mobile is cooperating with commercial banks in the PRC to establish a national unified payment system platform, offering unified access and uniformed rules and regulations to all payment services at a flat rate. Phase I of the project aims to unify the national payment system at all levels through electronic payment channels and connects China Mobile onto a platform that offers payment services and bill settlement functions. Once implemented, all mobile phone users will concurrently be able to deposit monetary value onto their mobile phone accounts for the purchase of goods and services. The national unified payment system platform will be one of China Mobile’s strategic projects to transform itself from a mobile phone services operator into an internet based services enterprise.

Fetion is a critical part of China Mobile’s mobile internet business strategy which currently has over 320 million registered users. It is already a major mobile internet platform connecting a large number of users between PCs and mobile phones in the PRC.

On 7 April 2014, the Company and ChinaSoft entered into a project implementation agreement with respect to the contracted work for Fetion. As the consideration for due performance of its obligations under the formal agreement, ChinaSoft has agreed to pay the Company a total sum of RMB15 million (equivalent to about HK\$18.75 million) in three instalments.

In the area of online platforms, Guangzhou YBDS and the Guangdong Branch of China Telecom Corporation Limited (中國電信股份有限公司) (stock code: 728) (“Guangdong Telecom”) had entered into an agreement to combine their resources by collaborating with each other to develop, establish, and operate an integrated online education platform (the “Online Education Platform”) to support the open policies of Guangdong’s education department. It is the Education Department’s intention to standardize the education programs taught in primary and secondary schools such that students in rural areas will be able to enjoy the same quality of education as those in the urban areas. One means of achieving this objective is making education virtual. Once completed, the Online Education Platform, capable of serving up to 6 million subscribers, will be able to serve all education administration and research institutions, and more than 20,000 primary and secondary schools, 890,000 teachers, and over 18,000,000 students in Guangdong Province. During the reporting period, the Company has completed the design, construction and testing of a prototype of the over-the-top network system for the Online Education Platform.

In the area of hi-tech hardware, the Company had commenced the trading of G-PON equipment in the 4th quarter of 2012. For the year ended 31 March 2014, the Group recorded a drop in the trading of G-PON equipment and only generated revenue of approximately HK\$5.52 million (HK\$35.05 million for the year ended 31 March 2013). Additionally, during the reporting period, the Group had supplied 天翼電子商務有限公司 (China Telecom Bestpay E-commerce Ltd.\*) (“China Telecom Bestpay”) with 1,600 sets of Points of Sales (“POS”) terminals for a total contract sum of RMB1.89 million, or approximately HK\$2.38 million.

The Group’s system integration services and other value-added technical consultation services and hardware-related business in Hong Kong continue to be principally facilitated by Norray Professional Computer Limited, an indirect non wholly-owned subsidiary of the Company.

In other areas of business development, Guangzhou YBDS had, on 21 March 2014, entered into an agency framework agreement with Aspire Information Technologies (Beijing) Co., Ltd. (卓望信息技術(北京)有限公司) (“Aspire”) under which Guangzhou YBDS was appointed as Aspire’s agent, on a non-exclusive basis, to promote and distribute Aspire’s unified communications businesses, irrespective of whether such businesses are operated by Aspire or not, and provide relevant customer service and support thereunder in each province of the PRC. Aspire, an indirect subsidiary of Aspire Holdings Limited (“Aspire Holdings”), was established in 2004 to provide operation and support services for the value added data businesses of China Mobile and is responsible for the operation and support of the central portal monternet.

## EXECUTIVE DIRECTOR'S STATEMENT

Aspire Holdings, a direct non wholly-owned subsidiary of China Mobile, is the pioneer developer of data products and services for China Mobile. Aspire Holdings actively assists China Mobile to explore, expand, and facilitate businesses in areas of information and communication technology and the internet. It has developed various super-large business platforms such as Mobile Information Service Centre ("MISC") and Service Information Management System ("SIMS"). Aspire also assists China Mobile in the operation and support of mobile newspaper and reading. In addition, through Personal Information Management ("PIM"), Aspire facilitates the development of China Mobile's 139 community, mobile micro-blog, and i-Contact under which its social network brand "Fetion" has a subscriber base of over 320 million registered users. Moreover, it has helped China Mobile to establish the first mobile market for carriers and the Center of Mobile Certificate Authority in the PRC.

The link up with Aspire marks a milestone in the Company's history. Cooperation with large-scale state-owned telecommunications operators and upstream/downstream partners in the industry enables the Company to develop and provide new products and services, re-defining and enhancing our business model.

On 31 March 2014, Guangzhou YBDS entered into a strategic cooperation agreement with BesTV New Media Co., Ltd. ("BesTV") to collaborate on exploring and developing new media technology and contents on Internet protocol television ("IPTV"), mobile television, internet television, mobile internet, multimedia stage design and production, and digital media platform research and development, offering such products and services through the 4 screens.

BesTV is a new media corporation controlled by Radio and Television Shanghai and Shanghai Media Group whose shares are listed on The Shanghai Stock Exchange (stock code: 600637). Its business scope includes research, exploration, design, construction, management, maintaining entire network systems, interactive media application platform, and provision of network-related software and hardware in the field of technology development, technical consulting, technology transfer, technical services, network video production and operations, messaging, network equipment design, leasing, and sales and service. As at the year ended 2012, BesTV had over 16 million IPTV subscribers.

The Directors believe that with the dawning of 4G networks, a new economy driven by new visual media is about to commence. The onset of unified communications will alter how traditional Internet OTT businesses operate. Moreover, mobile users will be able to access more convenient and colorful content benefited from the high bandwidth and low latency characteristics of 4G networks. Similarly, the cooperation with BesTV to develop and operate 4G new media businesses enables the Company to preempt the mainstream of 4G new media businesses onto the 4 Screens' users.

Given our ambitions in the telecommunications industry in the PRC, Mr. Ni Guang Nan ("Mr. Ni") was appointed as the Chief Science and Technology Advisor of the Company. He will focus to advise the Company on its business activities in the areas of information and telecommunications technology. Set out below is the biography of Mr. Ni.

Mr. Ni, aged 75, is a fellow of the Chinese Academy of Engineering. He is a specialist in computer architecture and algorithms, and was previously the chief science and technology officer of the Lenovo Group. Mr. Ni graduated from the Nanjing Institute of Technology (now Southeast University in Nanjing) in 1961. After graduation, he was employed with the Institute of Computing Technology Chinese Academy of Sciences and has extensive experience in foundation research and product development in computing technology and its related fields. Mr. Ni pioneered the inputting of Chinese characters in computer applications. In 1994, he was among the first group of people selected to join the Chinese Academy of Engineering.

## EXECUTIVE DIRECTOR'S STATEMENT

Furthermore, the Directors believe the growth in mobile internet has brought forward intense competition across all market segments of the telecommunications industry into an era driven largely by the volume of data throughput. In hindsight, the Group re-defines its core business. Key businesses of the Group have been expanded to include big data, unified communications, cloud computing, network security SDN, 4G new media, top-level designs for e-finance, the software and hardware maintenance and operation in respect of the back end network support systems, design, development, production and manufacturing of the network front end products as well as the business operation of the online and offline payment. As such, the Group is accelerating its efforts in strategic transformation and capacity enhancement to maintain and create its competitive advantages.

The Directors believe that accelerating in strategic transformation is part and parcel to the Group's new corporate strategy in broadening its income base and enhancing its growth potential.

Finally, on behalf of the Board, I would like to take this opportunity to express my gratitude to all members of the Board, staff and those who have supported us for their dedication and contribution to the Group. We will continue to put our best efforts to provide a better return to our shareholders.

# MANAGEMENT DISCUSSION AND ANALYSIS

## BUSINESS REVIEW

The general business and operating environment during the reporting period continues to be affected by the spillover effects of global economic conditions even for those markets which historically have recorded high growth rates such as the market in the PRC. Although the overall momentum for the PRC market remains positive, slower macro-economic growth, and greater and more complex competition have made the telecommunications industry in the PRC more challenging.

The development of the global internet technology and applications have come to an effectual period of “consolidation and fission”. Emerging production elements such as big data, cloud computing, unified communications, 4G mobile new media, network security SDN and e-finance have been transformed into the “production tools” of the “new economic generation”. At this moment, the economic entities of the traditional global industries have entered into a turbulent period in respect of the transformation from old to new entities. A tide of tremendous changes in global economic entities is approaching. It indicates that an era of bell for a thorough reform in global economic entities has been ringing! All nations around the world will welcome the incoming big era of “Yunbo Digital Synergy”.

“雲” is the Chinese character standing for “cloud”, which represents the forms of development in respect of the “cloud network” in the internet cloud computing, which indicates the general integration of network structure and 4 screens’ interconnection (PCs, mobile phones, televisions and iPads). The forms of development refer to the cloud forms of interconnected applications such as cloud space, cloud service, cloud search, cloud community, cloud browsing.

Cloud service is the realization of interconnection between various end devices. The operating terminals of PCs, mobile phones, televisions and iPads no longer require strong processing capabilities. All the resources used by the users are provided by a cloud back-office complex with powerful storage and processing capabilities.

“博” is the Chinese character having the meaning of “rich and extensive”, which represents big data, unified communications, cloud computing, network security SDN, e-finance, 4G based new media, etc. It covers all the contents of internet technological development and applications in different stages.

The rising of the era of big data, which shocks the foundations of all the traditional industries, has been blended with the blood of the individuals, enterprises, nations and global economic entities and has become a new productivity in this generation. The excavation and use of the substantial amount of data foreshadow the growth of the production rate in this new generation and the trend of consumers’ surplus.

In early 2012, there was a change of leadership in the Company. The new senior management having carefully evaluated the Company’s situation decided to adopt a new corporate strategy in the hopes of being able to broaden the Group’s income base and strengthen its growth potential. The re-defined direction steered the Company into the telecommunications industry in the PRC market to focus on the Company’s strengths in business and product development particularly in the areas of trading of ancillary high-tech software and hardware; developing and establishing integrated online platforms for the distribution of mobile products and provision of value-added services; and setting up joint ventures with multinational companies to introduce and procure mobile application products and services, among others.

To facilitate the Group’s future business endeavors and potential joint cooperations, two wholly foreign owned enterprises, Guangzhou YBDS and Beijing Yunbo were established in the PRC in 2012.

## MANAGEMENT DISCUSSION AND ANALYSIS

### Guangzhou YBDS

Guangzhou YBDS was approved for establishment on 13 August 2012 while its business license was issued on 18 September 2012. The entire equity interest of Guangzhou YBDS is held by Pacific Honour Development Limited, a wholly owned subsidiary of the Company. Guangzhou YBDS' initial total investment and registered capital was RMB40 million and RMB20 million, respectively. On 11 November 2013, the Bureau of Foreign Trade and Economic Cooperation of Guangzhou Municipality (廣州市對外貿易經濟合作局) granted its approval for Guangzhou YBDS to increase its total investment from RMB40 million to RMB80 million, and its registered capital from RMB20 million to RMB40 million. As at the date of this report, approximately 60.84% of its registered capital (or the equivalent to approximately RMB24.33 million) has been paid up with the remaining 39.16% (or the equivalent to approximately RMB15.67 million) being due and payable on or before 13 November 2014. Guangzhou YBDS's business scope includes computer software or hardware system integration, external equipment, financial and electronic equipment, automated control systems and related equipment, new models of electronic devices, smart modems, research and development of educational software and hardware, sale of computer software, hardware and ancillary equipment, electronic products, general machinery equipment, specialized equipment, and provision of technical services and support.

### Beijing Yunbo

Beijing Yunbo was approved for establishment on 21 November 2012 while its business license was issued on 19 December 2012. The entire equity interest of Beijing Yunbo is held by Able Bloom Technology Limited, a wholly-owned subsidiary of the Company. Beijing Yunbo's total investment and registered capital are RMB40 million and RMB20 million, respectively. As at the date of this report, 20% of the registered capital or RMB4 million has been paid up with the remaining 80% or RMB16 million due to be paid on or before 18 December 2014. Beijing Yunbo's business scope includes technology development and system integration of computer hardware and software, communication system, network system and automatic control system, educational software development, sale of proprietary products, technical services and technical consultancy.

To ensure the Company is financially stable with sufficient financial resources to continue the development of its proposed projects. The Company on 5 August 2013, allotted and issued 450,000,000 new shares of the Company having a par value of HK\$0.10 each in the capital of the Company at a subscription price of HK\$0.225 each to Happy On, the Group's single largest shareholder, raising net proceeds of about HK\$100 million. Immediately after the completion of the subscription, Happy On holds 987,888,771 shares of the Company, representing approximately 72.83% of the total issued share capital of the Company.

In spite of the ever challenging operating environment in the PRC, the Group has made great strides over the past two years in its business development after having entered into the telecommunications industry in the PRC market.

In the area of software deployment, the Company had teamed up with ChinaSoft. In our first venture together, the two parties entered into a non-legally binding letter of intent on 2 August 2012 whereby both agreed to collaborate with each other to submit a tender bid for specific parts of a wireless infrastructure project Wireless City\* (無線城市). Wireless City is a project sponsored and undertaken by Guangdong Mobile, a subsidiary of China Mobile. China Mobile had embarked on the Wireless City project in 2012 as it aspires to develop and construct a wireless infrastructure network for PRC cities such that everyone in these cities will be able to have free Wi-Fi access.

## MANAGEMENT DISCUSSION AND ANALYSIS

On 7 May 2013, MMIM Info. Technology Co., Ltd.\* (北京掌中無限信息技術有限公司) (“MMIM”), a wholly-owned subsidiary of ChinaSoft, had submitted open tender documents for specific parts of the Wireless City project to Guangdong Mobile. Excellent Master Investments Limited, a wholly-owned subsidiary of the Company, ChinaSoft International (Hong Kong) Limited, a wholly-owned subsidiary of ChinaSoft, the Company and ChinaSoft concurrently entered into a project implementation agreement to implement the specific parts of the Wireless City project in the event that the bid is successful (in which case, MMIM and Guangdong Mobile will enter into a formal project agreement).

The close relationship between the Company and ChinaSoft will continue to be strengthened with further collaborations in 2014 as the two parties worked together hand in hand to bid for other projects sponsored by PRC’s leading telecommunications operators.

In March 2014, the Company and ChinaSoft entered into a non-legally binding letter of intent to submit a tender for the construction of phase I of the unified payment system (統一支付系統一期工程), a project to be implemented by China Mobile for the establishment of a national unified payment platform in the PRC. The Company and ChinaSoft were also working together to submit a bid for contracted work relating to the repair and maintenance and operations of China Mobile’s Fetion platform and its related social products and services offering.

Based on the principles of “centralization, standardization, unification”, China Mobile is cooperating with commercial banks in the PRC to establish a national unified payment system platform, offering unified access and uniformed rules and regulations to all payment services at a flat rate. Phase I of the national unified payment system will connect China Mobile with electronic payment channels at all levels onto a platform that offers payment services and bill settlement functions. All mobile phone users will concurrently be able to store monetary value onto their mobile phone accounts for the purchase of goods and services. The national unified payment system platform will be one of China Mobile’s strategic projects to transform itself from a mobile phone services operator into an internet based services enterprise.

Fetion is currently estimated to have over 320 million registered users, and is a critical part of China Mobile’s mobile internet business strategy. It is already a major mobile internet platform connecting a large number of users between PCs and mobile phones in the PRC.

On 7 April 2014, the Company and ChinaSoft entered into a project implementation agreement with respect to the contracted work for Fetion. As the consideration for due performance of its obligations under the formal agreement, ChinaSoft has agreed to pay the Company a total sum of RMB15 million (equivalent to about HK\$18.75 million) in three instalments.

When collaborating with ChinaSoft, typically if our tender is successful, ChinaSoft would first enter into a formal project agreement with the relevant company of telecommunications operator, and the Company (or its nominee) will then enter into a project agreement with ChinaSoft to determine the implementation costs as well as setting out the detailed terms of each party’s participation in the relevant project. In general, ChinaSoft shall, at its own costs (but in any event such costs shall not exceed the amount to be stipulated under the project agreement), be responsible for all the technical and construction works of the relevant project (including but not limited to the development, manufacture, testing, construction of the hardware, middleware and software systems necessary for completion, technical services and support etc.); whereas the Company shall, at its own costs, provide business analysis and integrated works in connection with the relevant project.

In the area of establishing integrated online platforms, Guangzhou YBDS and Guangdong Telecom entered into a collaboration agreement to combine their resources and cooperate with each other to develop, establish, and operate the Online Education Platform to support the open policies of Guangdong’s education department.

## MANAGEMENT DISCUSSION AND ANALYSIS

The Department of Education of Guangdong Province (the "Education Department") had, on 30 August 2012, issued "The Development of Informationization in Education in Guangdong Province "12th 5-Year" Plan\*\*" (廣東省教育信息化發展「十二五」規劃) to promulgate its intention to expedite current movements to raise the standard level of education in Guangdong through advancements of technology. The Education Department intends to standardize the education programs taught in primary and secondary schools such that students in rural areas will be able to enjoy the same quality of education as those in the urban areas. One of the means of achieving this objective was to make education virtual.

Under the collaboration agreement, Guangdong Telecom is responsible for constructing a specific network dedicated to the Online Education Platform to facilitate the stable transmission of information and content and covering all education administration and research institutions as well as primary and secondary schools within Guangdong Province. Guangdong Telecom will operate and maintain this dedicated network, which include upgrading and testing of the access terminals and access terminal equipment, installation services, as well as provision of technical support. Guangzhou YBDS is responsible for the investment of an amount up to RMB700 million to construct the Online Education Platform, and provided it with overall management and operation services which include technical services, software and hardware, studios and work space for video recording as well as project implementation, market demand analysis, system integration, computing technology, technical support, network testing and liaising with the various education administration departments.

Once completed, the Online Education Platform, capable of serving up to 6 million subscribers, will be able to serve all education administration and research institutions, and more than 20,000 primary and secondary schools, 890,000 teachers, and over 18,000,000 students in Guangdong Province.

During the reporting period, the Company has completed the design, construction and testing of a prototype of the over-the-top network system for the Online Education Platform.

In the area of trading ancillary high-tech software and hardware equipment, the Company had commenced the trading of G-PON equipment in the 4th quarter of 2012. For the year ended 31 March 2014, the Group generated revenue of approximately HK\$5.52 million in the trading of G-PON equipment (HK\$35.05 million for the year ended 31 March 2013).

Additionally, to be able to submit tenders to supply POS terminals, Guangzhou YBDS had entered into an agreement with Fujian Newland Computer Co., Ltd. (福建新大陸電腦股份有限公司) ("Newland") with Guangzhou YBDS being appointed as a sales and marketing agent for POS terminals manufactured by Newland. The POS terminal is the modern replacement of the cash register that, when connected to a POS system, can record and track customer orders, process credit and debit cards, connect to other systems in a network, and manage inventory. In short, it is a computer which is provided with application-specific programs and I/O devices for the particular environment in which it serves.

During the reporting period, the Group had supplied China Telecom Bestpay with 1,600 sets of POS terminals for a total contract sum of RMB1.89 million, or approximately HK\$2.38 million.

The Group's system integration services and other value-added technical consultation services and hardware-related business in Hong Kong continue to be principally facilitated by Norray Professional Computer Limited, a subsidiary of the Company.

## MANAGEMENT DISCUSSION AND ANALYSIS

### FINANCIAL REVIEW

For the year ended 31 March 2014, the Group recorded a revenue of approximately HK\$36,572,000, representing an decrease of approximately 32% when compared with the last corresponding year. The significant decrease in revenue was principally due to a drop of business volume in the trading of G-PON equipment in which the Group having generated revenue approximately HK\$5,523,000 during the year. Loss attributable to owners of the Company for the year ended 31 March 2014 was approximately HK\$10,481,000 as compared to a loss of approximately HK\$11,860,000 for the year ended 31 March 2013.

### SEGMENTAL INFORMATION

#### Business segments

During the year under review, revenue generated from hardware sales decreased by approximately 45%, revenue from maintenance services increased by approximately 14% while revenue from consultancy services increased by HK\$6,350,000. Additionally, revenue from software sales decreased by approximately 5%.

#### Geographical segments

The provision of system integration services and other value-added technical consultation services and hardware-related business mainly caters for the PRC market. Revenue from the Hong Kong segment represented approximately 79% of the total revenue (2013: 35%).

### FINANCIAL RESOURCES AND LIQUIDITY

As at 31 March 2014, the shareholders' funds of the Group amounted to approximately HK\$122,635,000. Current assets were approximately HK\$129,246,000, mainly comprising cash and cash equivalents of approximately HK\$112,112,000 and trade and other receivables of approximately HK\$17,134,000. ## MANAGEMENT DISCUSSION AND ANALYSIS

### EMPLOYEES AND REMUNERATION POLICIES

As at 31 March 2014, the Group had 44 employees (including 7 Directors) (2013: 26 employees (including 7 Directors)). The total remuneration paid to employees, including Directors, for the year ended 31 March 2014 was approximately HK\$11,364,000 (2013: HK\$9,036,000). Remuneration is determined by reference to market terms and the performance, qualification and experience of each individual employee. Annual year-end double pay is paid based on each individual employee's performance as recognition of and reward for their contributions. Other benefits accruing to the employees include contributions made to statutory mandatory provident fund scheme and a group medical scheme.

### SIGNIFICANT INVESTMENTS

For the year ended 31 March 2014, the Group had no significant investment.

### FUTURE PROSPECTS AND PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

In line with the Department of Education of Guangdong Province's medium to long term strategic plan to standardize the education programs taught in primary and secondary schools such that students in rural areas will be able to enjoy the same quality of education as those in the urban areas, on 22 April 2013, Guangzhou YBDS and Guangdong Telecom decided to combine their resources by collaborating with each other to develop, establish, and operate the Online Education Platform.

The Online Education Platform is an integrated platform that enables its subscribers to access educational content through data-streaming for a monthly subscription fee. An additional fee is charged for viewing access to special programs made available by video on demand. When completed, it will have the capacity to serve up to 6 million subscribers targeting all education administration and research institutions, and more than 20,000 primary and secondary schools, 890,000 teachers, and over 18,000,000 students in Guangdong Province.

Under the collaboration agreement, Guangzhou YBDS is responsible for the investment up to RMB700 million to construct the Online Education Platform, and project implementation by providing the necessary technical services, including developing the various software applications for content distribution, data streaming, video on demand, content compression, management of the subscribers base, and an information and data control center, developing a comprehensive content delivery/distribution network or a large distributed system of several thousand servers deployed in multiple data centers across the Internet capable of supporting up to 6 million subscribers, and manufacture of required amount of encoders or set-up boxes equipped with wireless remote controls and headphone capability, setting up offices as well as studios and work space for video recording (it anticipates to lease up to 6,600 square meters of space in Guangzhou, and up to 500 square meters of space in the other 20 satellite offices in cities within Guangdong Province), renovation work, all heating, ventilation and air-conditioning, office furniture, computer equipment, related video recording equipment, staffing of up to 1,100 people consisting of professionals, technicians as well as service and maintenance personnel, among others, project implementation, computing technology, market demand analysis, system integration, technical support, and network testing as well as liaising with the various education administration departments in Guangdong Province.

Guangdong Telecom is responsible for construction of a specific network dedicated to the Online Education Platform to facilitate the stable transmission of educational information and content covering all education administration and research institutions as well as primary and secondary schools within Guangdong Province. Guangdong Telecom will operate and maintain this dedicated network, which include upgrading and testing of access terminals and access terminal equipment, installation services, as well as provision of technical support.

## MANAGEMENT DISCUSSION AND ANALYSIS

Guangzhou YBDS, on 21 March 2014, entered into an agency framework agreement with Aspire pursuant to which Aspire has appointed Guangzhou YBDS as its non-exclusive agent to promote and distribute their unified communications business, irrespective of whether such businesses are operated by Aspire or not, and provide relevant customer service and support thereunder in each province of the PRC.

Aspire, an indirect wholly-owned subsidiary of Aspire Holdings, was established in 2004 to provide operation and support services for value added data business of China Mobile and is responsible for the operation and support of the central portal Monternet.

Aspire Holdings, a direct non wholly-owned subsidiary of China Mobile, is the pioneer developer of data products and services for China Mobile. Aspire Holdings actively assists China Mobile in exploring, expanding, and facilitating businesses in areas such as information and communication technology and the internet. It has developed various super-large business platforms such as MISC and SIMS providing services nationwide. Aspire also assists China Mobile in the operation and support of mobile data businesses such as mobile newspaper and mobile reading. And through PIM, Aspire facilitates the development of China Mobile's Internet businesses such as 139 community, mobile micro-blog, and i-Contact under which its social network brand Fetion has a subscriber base of over 320 million users. In addition, it helped China Mobile to establish the first mobile market for carriers and the Center of Mobile Certificate Authority in the PRC.

The link-up with Aspire marks a milestone in the Company's history. Cooperation with large-scale state-owned telecommunications operators and upstream/downstream partners in the industry enables the Company to develop and provide new products and services, re-defining and enhancing our business model.

The premise of our cooperation with Aspire together with Fetion's estimated over 320 million registered users creates a solid foundation for the Company and Aspire to jointly develop front end module businesses.

On 31 March 2014, Guangzhou YBDS entered into a strategic cooperation agreement with BesTV to collaborate on exploring and developing new media technology and contents on IPTV, mobile television, internet television, mobile internet, multimedia stage design and production, and digital media platform research and development, offering such products and services through smart phones, PCs, television, and iPads (collectively, the "4 Screens").

BesTV is a new media corporation controlled by Radio and Television Shanghai and Shanghai Media Group whose shares are listed on The Shanghai Stock Exchange (stock code: 600637). Its business scope includes research, exploration, design, construction, management, maintaining entire network systems, interactive media application platform, and provision of network-related software and hardware in the field of technology development, technical consulting, technology transfer, technical services, network video production and operations, messaging, network equipment design, leasing, and sales and service. As at the year ended 2012, BesTV had over 16 million IPTV subscribers.

The Directors believe that with the dawning of 4G networks, a new economy driven by new visual media is about to commence. The onset of unified communications will alter how traditional Internet businesses operate. Moreover, mobile users will be able to access more convenient and colorful content benefited from the high bandwidth and low latency characteristics of 4G networks. Similarly, the cooperation with BesTV to develop and operate 4G new media businesses enable the Company to preempt the mainstream of 4G new media businesses onto the 4 screens.

## MANAGEMENT DISCUSSION AND ANALYSIS

The Directors believe that the exponential growth in mobile Internet has brought forward intense competition across all market segments of the telecommunications industry into an era driven largely by the volume of data throughput. In hindsight, the Group re-defined our core business. Key businesses of the Group have been expanded to include big data, unified communications, cloud computing, network security SDN, 4G new media, top-level designs for e-finance, the software and hardware maintenance and operation in respect of the back end network support systems, design, development, production and manufacturing of the network front end products as well as the business operation of the online and offline payment. In hindsight, the Group is therefore accelerating its efforts in strategic transformation and capacity enhancement to maintain and create its competitive advantages.

Given our ambitions in the telecommunications industry in the PRC, Mr. Ni Guang Nan was appointed as the Company's chief science and technology advisor of the Company on 7 April 2014. He will focus on advising the Company on its business activities in information and telecommunications technology. Set out below is the biography of Mr. Ni.

Mr. Ni, aged 75, is a fellow of the Chinese Academy of Engineering. He is a specialist in computer architecture and algorithms, and was previously the chief science and technology officer of the Lenovo Group. Mr. Ni graduated from the Nanjing Institute of Technology (now Southeast University in Nanjing) in 1961. After graduation, he was employed with the Institute of Computing Technology Chinese Academy of Sciences and has extensive experience in foundation research and product development in computing technology and its related fields. Mr. Ni pioneered the inputting of Chinese characters in computer applications. In 1994, he was among the first group of people selected to join the Chinese Academy of Engineering.

Mr. Ni was previously a fellow of the Institute of Computing Technology Chinese Academy of Sciences, a fellow of the Chinese Academy of Engineering. He has also served as the fifth and sixth Chairman of the Chinese Information Processing Society of China, a deputy director of the Cloud Computing Specialists Committee of the Chinese Institute of Electronics, a deputy director of the Internet of Things Specialists Committee of the Chinese Institute of Electronics, a deputy director of the Internet of Things Specialists Committee of the China Electronics Chamber of Commerce, a Deputy Director of Specialists Advisory Committee within the Administrative Committee of the Zhongguancun Haidian Science Park, a Deputy Director of Specialists Advisory Committee of the Chinese Academy of Governance, a Member of the Specialists Committee of the Chinese Electronic Records Management Centre. He also held various capacities such as the Specialists Committee of the Chinese Information Technology Security Evaluation Center, a representative of the 8th National People's Congress, a member of the 8th and 9th National Committee of the Chinese People's Political Consultative Conference and an honorary member of the 5th All-China Youth Federation.

The Directors believe the entering into of the agency framework agreement with Aspire and strategic cooperation agreement with BesTV is in line with the Group's strategy enabling it to expand its existing services and revenue base and enhance its growth potential. Accordingly, the Directors consider the agency framework agreement and strategic cooperation agreement are in the interest of the Company and its shareholders as a whole.

## CORPORATE GOVERNANCE PRACTICES

The Company has adopted the code provisions set out in the Corporate Governance Code and Corporate Governance Report (the "Code") as set out in Appendix 15 to the GEM Listing Rules. The Company has complied with the code provisions set out in the Code throughout the year ended 31 March 2014 except for the deviations from code provisions A.1.8 and A.2.1 of the Code as explained as follows:

### Code provision A.1.8

Code provision A.1.8 stipulates that the Company should arrange appropriate insurance cover in respect of legal action against its directors.

During the reporting period, the Board considered that under the current close management situation of the Group and business scale, the possibility of actual litigation against the Directors is very low. The Company will consider reviewing various insurance cover proposals and will make such an arrangement as appropriate.

### Code provision A.2.1

Code provision A.2.1 stipulates that the roles of chairman and chief executive officer should be separated.

The executive Directors, namely, Mr. Wang Chaoyong, Mr. Yau Hoi Kin, Mr. Kwong Wai Ho, Richard and Dr. Huang Youmin, are focused on evaluating new potential business and investment opportunities and formulating and implementing business strategies to enhance the revenue and growth potential of the Company. Hence, a new chairman and chief executive officer will not be appointed until suitable candidates have been identified for such purpose.

The Board will continue to monitor and review the Company's corporate governance practices to ensure compliance with the CG Code.

The Board conducted reviews of the system of internal controls of the Group to ensure an effective and adequate internal controls system is in place. The Board also convened meetings to discuss financial, operational and risk management controls.

In 2014, the Company continued to implement and follow up on those suggestions and recommendations made by Zhonghui Anda Risk Services Limited as part of their 2013 comprehensive review on the internal controls of the Group. As such, the Group's internal supervision and risk prevention measures continue to improve.

## COMPLIANCE OF CODE FOR DIRECTORS' SECURITIES TRANSACTION

The Company has adopted a code of conduct regarding securities transactions by directors on terms no less exacting than the required standard of dealings set out in Rules 5.48 to 5.67 of the GEM Listing Rules. Having made specific enquiry, all Directors of the Company have complied with the required standard of dealings and the code of conduct regarding securities transactions by directors adopted by the Company throughout the year ended 31 March 2014.

# CORPORATE GOVERNANCE REPORT

## Functions of the Board

The Board is responsible for formulating the Group's overall strategy, considering and approving financial statements, material contracts and transactions as well as other significant policy and financial matters. The Board delegates the day to day operation and administration functions to the executive Directors and management, while preserving the right to finally approve key matters and strategic decisions. When the Board delegates certain aspects of its management and administration functions to management, it gives clear directions as to the powers of management, in particular, with respect to the circumstances where management should report back and obtain prior approval from the Board before making decisions or entering into any commitments on behalf of the Company. The Directors do not have any financial, business, family or other material/relevant relationships with each other.

## Practices and Conduct of Meetings

Schedules and draft proposed agendas for all Board and committee meetings are normally made available to Directors in advance.

Notice to regular Board meetings is served to all Directors at least 14 business days before the meeting. For other Board and committee meetings, reasonable notice is generally given.

Board papers together with all appropriate, complete and reliable information are sent to all Directors/committee members, to the extent possible, at least 3 days before each Board or committee meeting to keep the Directors or committee members apprised of the latest developments and financial position of the Company enabling them to make informed decisions. The Board and each Director have separate and independent access to senior management whenever it deems necessary.

The secretary of the meeting is responsible to take and keep minutes of all Board and committee meetings. Draft minutes are normally circulated to Directors for comment within a reasonable time after each meeting and the final version is open for Directors' inspection.

According to the current practices of the Board, any material transaction, which involves a conflict of interests relating to a substantial shareholder, Director or Directors, will be considered and dealt with by the Board at a duly convened Board meeting. The Company's articles of association also contains provisions requiring Directors to abstain from voting and not to be counted in the quorum at meetings for approving transactions in which such substantial shareholder, Director or Directors or any of their associates have a material interest.

## Appointment, Re-election and Removal of Directors

According to the Company's articles of association, one-third of the Directors are required to retire from office at each annual general meeting, provided that every Director shall be subject to retirement by rotation at least once every three years.

According to the Code Provision A.4.1 of the CG Code, non-executive Directors should be appointed for a specific term of service. On 21 June 2012, two of the current independent non-executive Directors, namely Dr. Chow Ka Ming, Jimmy and Dr. Wong Wing Lit, entered into an appointment letter with the Company for a term of three years and are subject to retirement by rotation as they shall offer themselves for re-election in accordance with the Company's articles of association. Mr. Ngan Yu Loong has been appointed as an independent non-executive Director of the Company with effect from 2 December 2013. Mr. Liu Zhiquan resigned as an independent non-executive Director with effect from 19 December 2013 due to personal reasons.

## CORPORATE GOVERNANCE REPORT

### INDEPENDENT NON-EXECUTIVE DIRECTORS

The Company has received annual confirmations from each of the independent non-executive Directors as regards their independence of the Company pursuant to Rule 5.09 of the GEM Listing Rules and considers that each of the independent non-executive Directors to be independent of the Company.

### TERM OF OFFICE OF NON-EXECUTIVE DIRECTOR

The term of office for Mr. Hsu Chia-Chun, the non-executive Director, is for a period of one year commencing from 24 August 2013.

### CHAIRMAN AND CHIEF EXECUTIVE OFFICER

Code Provision A.2.1 stipulated that the roles of chairman and chief executive officer should be separated.

The executive Directors, namely, Mr. Wang Chaoyong, Mr. Yau Hoi Kin, Mr. Kwong Wai Ho, Richard, and Dr. Huang Youmin, are focused on evaluating new potential business and investment opportunities and formulating a new business strategy to enhance the revenue and growth potential of the Company. Hence, a new chairman and chief executive officer will not be appointed until suitable candidates have been identified for such purpose.

## CORPORATE GOVERNANCE REPORT

The policies for the remuneration of executive Directors and, if appropriate, independent non-executive Directors are:

- to ensure that none of the Directors should determine their own remuneration;
- the remuneration should be broadly aligned with companies with which the Company competes for human resources;
- the Group should aim to attract and retain executives and to motivate them to pursue appropriate growth strategies whilst taking into account individual performance; and
- the remuneration should reflect the performance, complexity of duties and responsibility of individuals.

### NOMINATION COMMITTEE

The Nomination Committee was established in May 2011 and the Company had adopted a revised specific written terms of reference as of 2 December 2013 in compliance with the Code Provision A.5.

The Nomination Committee comprised Mr. Ngan Yu Loong, Dr. Chow Ka Ming, Jimmy, and Dr. Wong Wing Lit, all of whom are independent non-executive Directors. Mr. Ngan Yu Loong is the current chairman of the Nomination Committee. He was appointed as a member of the Nomination Committee with effect from 2 December 2013. # INDEPENDENT AUDITORS' REPORT

**TO THE MEMBERS OF  
YUNBO DIGITAL SYNERGY GROUP LIMITED**  
*(incorporated in the Cayman Islands with limited liability)*

We have audited the consolidated financial statements of Yunbo Digital Synergy Group Limited (the "Company") and its subsidiaries (together, the "Group") set out on pages 35 to 80, which comprise the consolidated and the Company statements of financial position as at 31 March 2014, and the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

## **DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS**

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

## **AUDITORS' RESPONSIBILITY**

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## INDEPENDENT AUDITORS' REPORT

### OPINION

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 31 March 2014, and of the Group's loss and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### 2.1 Basis of preparation

The financial statements on page 35 to 80 have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”), which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and the disclosure requirements of the Hong Kong Companies Ordinance. These financial statements also include the applicable disclosure requirements of the Rules Governing the Listing of Securities on the GEM of the Stock Exchange (the “GEM Listing Rules”).

The significant accounting policies that have been used in preparation of the financial statements are summarised below. These policies have been consistently applied to all the years presented unless otherwise stated. The adoption of new or amended HKFRSs and the impacts on the Group’s financial statements, if any, are disclosed in note 3 to the financial statements.

The financial statements have been prepared under the historical cost basis. The measurement basis is fully described in the accounting policies below.

It should be noted that accounting estimates and assumptions are used in preparation of the financial statements. Although these estimates are based on management’s best knowledge and judgement of current events and actions, actual results may ultimately differ from those estimates. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 4 to the financial statements.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2014

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.2 Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries (together referred to as “the Group”) made up to 31 March each year.

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

Subsidiaries are consolidated into the consolidated financial statements from the date that control commences until the date that control ceases.

Intra-group transactions, balances and unrealised gains and losses on transactions between group companies are eliminated in preparing the consolidated financial statements. Where unrealised losses on intra-group asset sales are reversed on consolidation, the underlying asset is also tested for impairment from the Group’s perspective.

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. For each business combination, the Group can elect to measure any non-controlling interests either at fair value or at the non-controlling interests’ proportionate share of the subsidiary’s net identifiable assets.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from the equity attributable to the owners of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statement of comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between non-controlling interests and the owners of the Company.

Changes in the Group’s interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised.

When the Group loses control of a subsidiary, the profit or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. Where certain assets of the subsidiary are measured at revalued amounts or fair values and the related cumulative gain or loss has been recognised in other comprehensive income and accumulated in equity, the amounts previously recognised in other comprehensive income and accumulated in equity are accounted for as if the Company had directly disposed of the related assets (i.e. reclassified to profit or loss or transferred directly to retained earnings). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKAS 39 Financial Instruments: Recognition and Measurement or, when applicable, the cost on initial recognition of an investment in an associate.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2014

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.2 Basis of consolidation (continued)

In the Company's statement of financial position, subsidiaries are carried at cost less any impairment losses unless the subsidiary is held for sale or included in a disposal group. Cost is adjusted to reflect changes in consideration arising from contingent consideration amendments. Cost also includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividends received and receivable at the reporting date. All dividends whether received out of the investee's pre or post-acquisition profits are recognised in the Company's profit or loss.

### 2.3 Foreign currency translation

The financial statements are presented in Hong Kong Dollars (HK\$), which is also the functional currency of the Company.

In the individual financial statements of the consolidated entities, foreign currency transactions are translated into the functional currency of the individual entity using the exchange rates prevailing at the dates of the transactions. At the reporting date, monetary assets and liabilities denominated in foreign currencies are translated at the foreign exchange rates ruling at that date. Foreign exchange gains and losses resulting from the settlement of such transactions and from the reporting date retranslation of monetary assets and liabilities are recognised in profit or loss.

Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

In the consolidated financial statements, all individual financial statements of foreign operations, originally presented in a currency different from the Group's presentation currency, have been converted into Hong Kong dollars. Assets and liabilities have been translated into Hong Kong dollars at the closing rates at the reporting date. Income and expenses have been converted into Hong Kong dollars at the exchange rates ruling at the transaction dates, or at the average rates over the reporting period provided that the exchange rates do not fluctuate significantly. Any differences arising from this procedure have been recognised in other comprehensive income and accumulated separately in the translation reserve in equity.

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, loss of joint control over a joint venture that includes a foreign operation, or loss of significant influence over an associate that includes a foreign operation), all of the accumulated exchange differences in respect of that operation attributable to the Group are reclassified to profit or loss. Any exchange differences that have previously been attributed to non-controlling interests are derecognised, but they are not reclassified to profit or loss.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2014

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.4 Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other costs, such as repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

Depreciation is calculated using the straight-line method to allocate their costs to their residual values over their estimated useful lives, at the following rates per annum:

|                        |                     |
|------------------------|---------------------|
| Leasehold improvements | Over the lease term |
| Plant and machinery    | 20–50%              |
| Furniture and fixtures | 20–25%              |
| Office equipments      | 20%                 |

The assets' residual values, depreciation method and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

The gain or loss arising on retirement or disposal is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

### 2.5 Intangible assets (other than goodwill)

Intangible assets that are acquired by the Group are stated at cost less accumulated amortisation (where the estimated useful life is finite) and impairment losses. Amortisation of intangible assets with finite useful lives is charged to profit or loss on a straight-line basis over the assets' estimated useful lives. The following intangible assets with finite useful lives are amortised from the date they are available for use and their estimated useful lives are as follows:

|                               |         |
|-------------------------------|---------|
| Capitalised development costs | 5 years |
|-------------------------------|---------|

Both the period and method of amortisation are reviewed annually.

Intangible assets are not amortised while their useful lives are assessed to be indefinite. Any conclusion that the useful life of an intangible asset is indefinite is reviewed annually to determine whether events and circumstances continue to support the indefinite useful life assessment for that asset. If they do not, the change in the useful life assessment from indefinite to finite is accounted for prospectively from the date of change and in accordance with the policy for amortisation of intangible assets with finite lives.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2014

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.6 Financial assets

The Group's financial assets are classified as loans and receivables. Management determines the classification of its financial assets at initial recognition depending on the purpose for which the financial assets were acquired and where allowed and appropriate, re-evaluates this designation at every reporting date.

All financial assets are recognised when, and only when, the Group becomes a party to the contractual provisions of the instrument. Regular way purchases of financial assets are recognised on trade date. When financial assets are recognised initially, they are measured at fair value, plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

Derecognition of financial assets occurs when the rights to receive cash flows from the investments expire or are transferred and substantially all of the risks and rewards of ownership have been transferred.

At each reporting date, financial assets are reviewed to assess whether there is objective evidence of impairment. If any such evidence exists, impairment loss is determined and recognised based on the classification of the financial asset.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are subsequently measured at amortised cost using the effective interest method, less any impairment losses. Amortised cost is calculated taking into account any discount or premium on acquisition and includes fees that are an integral part of the effective interest rate and transaction cost.

#### Impairment of financial assets

At each reporting date, financial assets are reviewed to determine whether there is any objective evidence of impairment.

Objective evidence of impairment of individual financial assets includes observable data that comes to the attention of the Group about one or more of the following loss events:

- Significant financial difficulty of the debtor;
- A breach of contract, such as a default or delinquency in interest or principal payments;
- It becomes probable that the debtor will enter bankruptcy or other financial reorganisation;
- Significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor;
- The disappearance of an active market for that financial assets because of financial difficulties; and
- A significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2014

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.6 Financial assets (continued)

#### Impairment of financial assets (continued)

Loss events in respect of a group of financial assets include observable data indicating that there is a measurable decrease in the estimated future cash flows from the group of financial assets. Such observable data includes but not limited to adverse changes in the payment status of debtors in the group and, national or local economic conditions that correlate with defaults on the assets in the group.

If there is objective evidence that an impairment loss on loans and receivables carried at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). The amount of the loss is recognised in profit or loss of the period in which the impairment occurs.

If, in subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that it does not result in a carrying amount of the financial asset exceeding what the amortised cost would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in profit or loss of the period in which the reversal occurs.

Impairment losses on financial assets other than trade receivables that are stated at amortised cost are written off against the corresponding assets directly. Where the recovery of trade receivables is considered doubtful but not remote, the impairment losses for doubtful receivables are recorded using an allowance account. When the Group is satisfied that recovery of trade receivables is remote, the amount considered irrecoverable is written off against trade receivables directly and any amounts held in the allowance account in respect of that receivable are reversed. Subsequent recoveries of amounts previously charged to the allowance account are reversed against the allowance account. Other changes in the allowance account and subsequent recoveries of amounts previously written off directly are recognised in profit or loss.

### 2.7 Cash and cash equivalents

Cash and cash equivalents include cash at bank and in hand, demand deposits with banks and short term highly liquid investments with original maturities of three months or less that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.8 Financial liabilities

The Group's financial liabilities include trade and other payables and bank borrowings. They are recognised when the Group becomes a party to the contractual provisions of the instrument. All interest related charges are recognised in accordance with the Group's accounting policy for borrowing costs (see note 2.15).

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amount is recognised in profit or loss.

#### **Borrowings**

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

#### **Trade and other payables**

Trade and other payables are recognised initially at their fair value and subsequently measured at amortised cost, using the effective interest method.

### 2.9 Leases

An arrangement, comprising a transaction or a series of transactions, is or contains a lease if the Group determines that the arrangement conveys a right to use a specific asset or assets for an agreed period of time in return for a payment or a series of payments. Such a determination is made based on an evaluation of the substance of the arrangement and is regardless of whether the arrangement takes the legal form of a lease.

#### **(i) Classification of assets leased to the Group**

Assets that are held by the Company under leases which transfer to the Group substantially all the risks and rewards of ownership are classified as being held under finance leases. Leases which do not transfer substantially all the risks and rewards of ownership to the Group are classified as operating leases.

#### **(ii) Operating lease charges as the lessee**

Where the Group has the right to use of assets held under operating leases, payments made under the leases are charged to profit or loss on a straight line basis over the lease terms except where an alternative basis is more representative of the time pattern of benefits to be derived from the leased assets. Lease incentives received are recognised in profit or loss as an integral part of the aggregate net lease payments made. Contingent rental are charged to profit or loss in the accounting period in which they are incurred.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.10 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

All provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future uncertain events not wholly within the control of the Group are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

### 2.11 Share capital

Ordinary shares are classified as equity. Share capital is determined using the nominal value of shares that have been issued.

Any transaction costs associated with the issuing of shares are deducted from share premium (net of any related income tax benefit) to the extent they are incremental costs directly attributable to the equity transaction.

### 2.12 Revenue recognition

Revenue comprises the fair value of the consideration received or receivable for the sale of goods, rendering of services and the use by others of the Group's assets yielding interest, net of returns and discounts. Provided it is probable that the economic benefits will flow to the Group and the revenue and costs, if applicable, can be measured reliably, revenue is recognised as follows:

- (a) Revenue from the sale of enterprise software and hardware products is recognised on the transfer of risks and rewards of ownership, which generally coincides with the time when the goods are delivered to customers and title has passed.
- (b) Maintenance and consultancy service income is recognised over the life of the agreement on a straight-line basis. The unearned portion of the maintenance service income received is stated as deferred income in the statement of financial position.
- (c) Interest income is recognised on a time-proportion basis using the effective interest method.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.13 Impairment on non-financial assets

Property, plant and equipment, intangible assets and investments in subsidiaries are subject to impairment testing.

Intangible assets with indefinite useful life or those not yet available for use are tested for impairment at least annually, irrespective of whether there is any indication that they are impaired. All other assets are tested for impairment whenever there are indications that the asset's carrying amount may not be recoverable.

An impairment loss is recognised as an expense immediately for the amount by which the asset's carrying amount exceeds its recoverable amount. Recoverable amount is the higher of fair value, reflecting market conditions less costs to sell, and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of time value of money and the risk specific to the asset.

For the purposes of assessing impairment, where an asset does not generate cash inflows largely independent from those from other assets, the recoverable amount is determined for the smallest group of assets that generate cash inflows independently (i.e. a cash-generating unit). As a result, some assets are tested individually for impairment and some are tested at cash-generating unit level.

An impairment loss is reversed if there has been a favourable change in the estimates used to determine the asset's recoverable amount and only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

### 2.14 Employee benefits

#### Retirement benefits

Retirement benefits to employees are provided through defined contribution plans.

The Group operates a defined contribution retirement benefit plan under the Mandatory Provident Fund Schemes Ordinance, for all of its employees who are eligible to participate in the MPF Scheme. Contributions are made based on a percentage of the employees' basic salaries.

The employees of the Group's subsidiaries which operate in the PRC are required to participate in the central pension scheme operated by the local municipal government. These subsidiaries are required to contribute certain percentage of their payroll costs to the central pension scheme.

Contributions are recognised as an expense in profit or loss as employees render services during the year. The Group's obligations under these plans are limited to the fixed percentage contributions payable.

#### Short-term employee benefits

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the reporting date.

Non-accumulating compensated absences such as sick leave and maternity leave are not recognised until the time of leave.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.14 Employee benefits (continued)

#### Share-based employee compensation

All share-based payment arrangements are recognised in the financial statements. The Group operates equity-settled share-based compensation plans for remuneration of its employees.

All employee services received in exchange for the grant of any share-based compensation are measured at their fair values. These are indirectly determined by reference to the equity instruments awarded. Their value is appraised at the grant date and excludes the impact of any non-market vesting conditions (for example, profitability and sales growth targets).

All share-based compensation is recognised as an expense in profit or loss over the vesting period if vesting conditions apply, or recognised as an expense in full at the grant date when the equity instruments granted vest immediately unless the compensation qualifies for recognition as asset, with a corresponding increase in the share option reserve in equity. If vesting conditions apply, the expense is recognised over the vesting period, based on the best available estimate of the number of equity instruments expected to vest. Non-market vesting conditions are included in assumptions about the number of equity instrument that are expected to vest. Estimates are subsequently revised, if there is any indication that the number of equity instrument expected to vest differs from previous estimates.

At the time when the share options are exercised, the amount previously recognised in the share option reserve will be transferred to share premium. After vesting date, when the vested share options are later forfeited or are still not exercised at the expiry date, the amount previously recognised in the share option reserve will be transferred to retained profit.

### 2.15 Borrowing costs

Borrowing costs incurred, net of any investment income earned on the temporary investment of the specific borrowings, for the acquisition, construction or production of any qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use. A qualifying asset is an asset which necessarily takes a substantial period of time to get ready for its intended use or sale. Other borrowing costs are expensed when incurred.

Borrowing costs are capitalised as part of the cost of a qualifying asset when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are being undertaken. Capitalisation of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.16 Accounting for income taxes

Income tax comprises current tax and deferred tax.

Current income tax assets and/or liabilities comprise those obligations to, or claims from, fiscal authorities relating to the current or prior reporting period, that are unpaid at the reporting date. They are calculated according to the tax rates and tax laws applicable to the fiscal periods to which they relate, based on the taxable profit for the year. All changes to current tax assets or liabilities are recognised as a component of tax expense in profit or loss.

Deferred tax is calculated using the liability method on temporary differences at the reporting date between the carrying amounts of assets and liabilities in the financial statements and their respective tax bases. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, tax losses available to be carried forward as well as other unused tax credits, to the extent that it is probable that taxable profit, including existing taxable temporary differences, will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised.

Deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither taxable nor accounting profit or loss.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Company is able to control the reversal of the temporary differences and it is probable that the temporary differences will not be reversed in the foreseeable future.

Deferred tax is calculated, without discounting, at tax rates that are expected to apply in the period the liability is settled or the asset realised, provided they are enacted or substantively enacted at the reporting date.

Changes in deferred tax assets or liabilities are recognised in profit or loss, or in other comprehensive income or directly in equity if they relate to items that are charged or credited to other comprehensive income or directly in equity.

Current tax assets and current tax liabilities are presented net if, and only if,

- (a) the Group has the legally enforceable right to set off the recognised amounts; and
- (b) intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2014

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.16 Accounting for income taxes (continued)

The Group presents deferred tax assets and deferred tax liabilities net if, and only if,

- (a) the entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- (b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
  - (i) the same taxable entity; or
  - (ii) different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

### 2.17 Segment reporting

The Group identifies operating segments and prepares segment information based on the regular internal financial information reported to the executive directors for their decisions about resources allocation to the Group's business components and for their review of the performance of those components. The business components in the internal financial information reported to the executive directors are determined following the Group's major product and service lines.

The Group has identified the following reportable segments:

- Hardware: Sales of telecommunication and enterprise hardware products
- Software: Sales of enterprise software products
- Services: Maintenance and consultancy service income

Each of these operating segments is managed separately as each of the product and service lines requires different resources as well as marketing approaches. All inter-segment transfers are carried out at arm's length prices.

### 2.18 Related parties

- (a) A person, or a close member of that person's family is related to the Group if that person:
  - (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of the key management personnel of the Group or of the Group's parent.
  
- (b) An entity is related to the Group if any of the following conditions applies:
  - (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
  - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
  - (iii) Both entities are joint ventures of the same third party.
  - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
  - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
  - (vi) The entity is controlled or jointly controlled by a person identified in (a).
  - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

Close members of the family or a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

## 3. ADOPTION OF NEW OR AMENDED HKFRSs

The HKICPA has issued a number of new HKFRSs and amendments to HKFRSs that are first effective for the current accounting period of the Group and the Company. Of these, the following developments are relevant to the Group's financial statements:

|                       |   |
|-----------------------|---|
| Amendments to HKAS 1  | Presentation of items of other comprehensive income                 |
| HKFRS 10              | Consolidated financial statements                                   |
| HKFRS 12              | Disclosure of interests in other entities                           |
| HKFRS 13              | Fair value measurement  |
| Amendments to HKFRS 7 | Disclosures – Offsetting financial assets and financial liabilities |

The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

### Amendments to HKAS 1 Presentation of items of other comprehensive income

The amendments to HKAS 1 require additional disclosures to be made in the other comprehensive income section such that items of other comprehensive income are grouped into two categories: (1) items that will not be reclassified subsequently to profit or loss; and (2) items that may be reclassified subsequently to profit or loss when specific conditions are met. Income tax on items of other comprehensive income is required to be allocated on the same basis. The Group's presentation of other comprehensive income has been modified accordingly.

### HKFRS 10 Consolidated financial statements

HKFRS 10 replaces the requirements in HKAS 27, Consolidated and separate financial statements relating to the preparation of consolidated financial statements and HK-SIC 12, Consolidation – Special purpose entities. It introduces a single control model to determine whether an investee should be consolidated, by focusing on whether the entity has power over the investee, exposure or rights to variable returns from its involvement with the investee and the ability to use its power to affect the amount of those returns.

As a result of the adoption of HKFRS 10, the Group has changed its accounting policy with respect to determining whether it has control over an investee. The adoption does not change any of the control conclusions reached by the Group in respect of its involvement with other entities as at 1 April 2013.

### HKFRS 12 Disclosure of interests in other entities

HKFRS 12 brings together into a single standard all the disclosure requirements relevant to an entity's investments in subsidiaries, joint arrangements, associates and unconsolidated structured entities. The disclosures required by HKFRS 12 are generally more extensive than those required by the respective standards. To the extent that the requirements are applicable to the Group, the Group has provided those disclosures in note 17.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2014

## 3. ADOPTION OF NEW OR AMENDED HKFRSs (continued)

### HKFRS 13 Fair value measurement

HKFRS 13 replaces existing guidance in individual HKFRSs with a single source of fair value measurement guidance. HKFRS 13 also contains extensive disclosure requirements about fair value measurements for both financial instruments and non-financial instruments. The adoption of HKFRS 13 does not have any material impact on the fair value measurements of the Group's assets and liabilities. To the extent that the requirements are applicable to the Group, the Group has provided those disclosures in note 28.

### Amendments to HKFRS 7 Disclosure – Offsetting financial assets and financial liabilities

The amendments introduce new disclosures in respect of offsetting financial assets and liabilities. Those new disclosures are required for all recognised financial instruments that are set off under HKAS 32, Financial instruments: Presentation and those that are subject to an enforceable master netting arrangement or similar agreement that covers similar financial instruments and transactions, irrespective of whether the financial instruments are set off in accordance with HKAS 32.

The adoption of the amendments does not have an impact on the Group's consolidated financial statements because the Group has not offset financial instruments, nor has it entered into master netting arrangement or similar agreement which is subject to the disclosures of HKFRS 7 during the periods presented.

The following new standards, amendments and interpretations which have been issued by the HKICPA and may be relevant to the Group in future years but are not yet effective for the year ended 31 March 2014:

### Effective for the annual period beginning on 1 April 2014 or after

|                        |   |
|------------------------|---|
| Amendments to HKFRS 32 | Financial instruments: Presentation – Offsetting financial assets and financial liabilities |
| HKFRS 9                | Financial instruments   |

The above standards, amendments and interpretations, if they are relevant to the Group, will be adopted in the annual periods listed. The Group is in the process of making an assessment of the impact of the above standards, amendments and interpretations but is not yet in a position to ascertain their impact on its results of operations and financial position.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2014

## 4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below:

### Impairment of trade and other receivables

The Group's management estimates the provision of impairment of trade and other receivables by assessing their recoverability. Provisions are applied to trade and other receivables where events or changes in circumstances indicate that the balances may not be collectible and require the use of estimates. Where the expectation is different from the original estimate, such difference will impact carrying value of trade and other receivables and impairment charge in the period in which such estimate has been changed.

### Revenue recognition

The Group recognises revenue once it has been determined that it is probable the economic benefits will flow to the Group. The Group estimates the likelihood of the recoverability of the consideration, in particular for those contracts with progress payments being long overdue or delayed progress billings.

## 5. REVENUE AND SEGMENT INFORMATION

|                 | 2014<br>HK\$'000 | 2013<br>HK\$'000 |
|-----------------|------------------|------------------|
| <b>Revenue:</b> |                  |                  |
| Hardware        | 28,345           | 51,928           |
| Software        | 862              | 909              |
| Services        | 7,365            | 892              |
|                 | <b>36,572</b>    | 53,729           |

Management has determined the operating segments based on the reports reviewed by the executive directors that are used to make operating decisions. Executive directors are considered as the chief operating decision maker ("CODM").

The CODM review the Group's financial information from hardware, software and services perspectives. The reportable segments are classified in a manner consistent with the information reviewed by the CODM.

The CODM assess the performance of the operating segments based on a measure of reportable segment (loss)/profit. This measurement basis excludes other income and unallocated expenses.

Segment assets mainly exclude assets that are managed on a central basis. Segment liabilities mainly exclude liabilities that are managed on a central basis.

In respect of geographical segment reporting, sales are based on the country in which the customer is located, and non-current assets are based on the country where the assets are located.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2014

### 11. DIVIDENDS

The board of directors does not recommend the payment of a final dividend for the year ended 31 March 2014 (2013: Nil).

### 12. LOSS PER SHARE

Basic loss per share for the year is calculated by dividing the loss attributable to owners of the Company of approximately HK\$10,481,000 (2013: loss of approximately HK\$11,860,000) by the weighted average number of 1,200,907,534 (2013: 667,565,068) ordinary shares in issue during the year.

Diluted loss per share for the years 2014 and 2013 equals to the basic loss per share as the potential ordinary shares on exercise of warrants were not included in the calculation of diluted loss per share because they are anti-dilutive.

#### 17.2 Amounts due from subsidiaries

The provision was determined on the basis of the amounts recoverable from the subsidiaries with reference to the estimated fair value of the underlying assets held by subsidiaries.

Movements in the provision for impairment of amounts due from subsidiaries are as follows:

|                            | 2014<br>HK\$'000 | 2013<br>HK\$'000 |
|----------------------------|------------------|------------------|
| At 1 April                 | –                | –                |
| Recognised during the year | 22,886           | –                |
| At 31 March                | 22,886           | –                |

The carrying amounts of the amounts due from subsidiaries approximate their fair values.

The amounts due from subsidiaries are unsecured, interest-free and have no fixed terms of repayment.

|                               | <b>13,943</b>    | 31,983           |

Receivables that were neither past due nor impaired related to customers for whom there were no recent history of default. Receivables that were past due but not impaired related to customers that have a good track record of credit with the Group.

As at 31 March 2014 and 2013, no trade receivables were impaired and no provision for impairment was recognised for the years ended 31 March 2014 and 2013. The impairment was firstly assessed individually for individual significant or long outstanding balances, and the remaining balances were grouped for collective assessment according to their ageing and historical default rates as these customers were of similar credit risk characteristics.

The movement in the provision for impairment of trade receivables is as follows:

|                                    | Group            |                  |
|------------------------------------|------------------|------------------|
|                                    | 2014<br>HK\$'000 | 2013<br>HK\$'000 |
| At 1 April                         | –                | 96               |
| Amount written off during the year | –                | (96)             |
| At 31 March                        | –                | –                |

All amounts are short term and hence the carrying values of the Group's trade receivables are considered to be a reasonable approximation of fair values. The Group did not hold any collateral as security or other credit enhancements over the impaired trade receivables, whether determined on an individual or collective basis.

FOR THE YEAR ENDED 31 MARCH 2014

### 21. BANK BORROWINGS – GROUP

|   | 2014<br>HK\$'000 | 2013<br>HK\$'000 |
|---|------------------|------------------|
| Bank loans-secured  | –                | 10,000           |
| Carrying amount repayable:<br>Amounts due on demand or within one year shown<br>under current liabilities | –                | 10,000           |

As at 31 March 2014, the Group did not have any banking facilities. As at 31 March 2013, the Group had banking facilities amounted to HK\$100,000,000 secured by the ultimate holding company's bank deposits and carried interest at 1.3% per annum over HIBOR. As at 31 March 2013, the unutilised banking facilities amounted to HK\$90,000,000.

As at 31 March 2013, all bank loans were denominated in Hong Kong dollars and the effective interest rate at the reporting date was 1.5% per annum. The carrying amounts of bank loans approximated their fair values, as the impact of discounting was not significant due to their short-term maturity.

### 23. SHARE OPTIONS

Pursuant to an ordinary resolution passed at an annual general meeting of the Company held on 1 August 2011 ("Adoption Date"), the Company adopted the new share option scheme ("New Scheme") on the Adoption Date. The major terms of the New Scheme are summarised as follows:

- (a) The purpose of the New Scheme is to enable the Group to grant options to selected participants as incentives or rewards for their contribution to the Group.
- (b) The participants included any employee or consultant, advisor, agent, contractor, client or supplier of the Company or any subsidiary who in the sole opinion of the board of directors have contributed or are expected to contribute to the Group ("Participant").
- (c) The maximum number of shares to be issued upon the exercise of all outstanding options granted and yet to be exercised under the New Scheme and any other share option scheme of the Group must not in aggregated exceed 30% of the issued share capital of the Company from time to time.
- (d) The initial total number of shares which may be issued upon exercise of all options (excluding, for this purpose, options which have lapsed in accordance with the terms of the New Scheme and any other share option scheme of the Group) to be granted under the scheme and any other share option scheme of the Group must not in aggregate exceed 10% of the shares in issued at the day on which the New Scheme is approved and such limit might be refreshed by shareholders in general meeting.
- (e) The total number of shares issued and which may fall to be issued upon exercise of the options granted under the New Scheme and any other share option scheme of the Group to each Participant in any 12-month period shall not exceed 1% of the issued share capital of the Company for the time being (the "Individual Limit"). Any further grant of options in excess of the Individual Limit in any 12-month period up to and including the date of such further grant shall be subject to the issue of a circular to the shareholders and the shareholders' approval in general meeting of the Company with such Participant and his associates abstaining from voting.
- (f) Unless the directors otherwise determined and stated in the offer of the grant of options to a grantee, a grantee is not required to achieve any performance targets before any options granted under the New Scheme can be exercised.
- (g) An offer of the grant of the option may be accepted by a Participant within 28 days from the date of the offer of grant of the option. A nominal consideration of HK\$1 is payable on acceptance of the grant of an option.
- (h) The subscription price for shares under the New Scheme will be a price determined by the directors, but shall not be less than the higher of:
  - the closing price of shares as stated in the Stock Exchange's daily quotations sheet on the date of the offer of grant, which must be a business day;
  - the average closing price of shares as stated in the Stock Exchange's daily quotations for the five trading days immediately preceding the date of the offer of grant; and
  - the nominal value of the shares.
- (i) The New Scheme will remain in force for a period of 10 years commencing on the date on which the New Scheme is adopted.

No share options were granted by the Company or outstanding at any time during the year ended 31 March 2014.

**(a) Share premium**

Share premium represents the excess of the net proceeds from issuance of the Company's shares over its par value.

**(b) Translation reserve**

The translation reserve comprises all foreign exchange differences arising from the translation of the financial statements of foreign operations. The reserve is dealt with in accordance with the accounting policy set out in note 2.3.

**(c) Warrant reserve**

Warrant reserve represents the unexercised equity element of warrants issued by the Company.

**(d) Distributable reserve**

As at 31 March 2014, in the opinion of the directors, the Company's reserve available for distribution to owners amounted to approximately HK\$101,852,000 (2013: HK\$45,602,000).

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2014

### 25. DEFERRED INCOME TAX

#### Deferred income tax liabilities:

No deferred income tax liabilities have been recognised in the financial statements as the Group and the Company did not have material temporary differences arising between the tax bases of assets and liabilities and their carrying amounts as at 31 March 2014 and 2013.

#### Deferred income tax assets:

No deferred income tax assets have been recognised in the financial statements in respect of tax losses available to offset future profits due to the uncertainty of future profit streams against which the assets can be utilised. At the reporting dates, the unrecognised tax losses of the Group and the Company are as follows:

|            | Group            |                  | Company          |                  |

The Group leases a number of premises, online platform and equipment under operating leases. The leases run for an initial period of one to five years, with an option to renew the leases and renegotiate the terms at the expiry date.

#### Company – as lessee

The Company does not have any significant operating lease commitments as lessee as at 31 March 2014 and 2013.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2014

### 27. RELATED PARTY TRANSACTIONS

During the years ended 31 March 2014 and 2013, the Group has not entered into significant transactions with related parties.

No transactions have been entered with the directors of the Company (being the key management personnel) during the year other than the emoluments paid to them (being the key management personnel compensation) as disclosed in note 14.1.

### 28. FINANCIAL RISK MANAGEMENT AND FAIR VALUE MEASUREMENTS

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

#### 28.1 Categories of financial assets and liabilities

The carrying amounts presented in the statement of financial position relate to the following categories of financial assets and financial liabilities:

|   | 2014<br>HK\$'000 | 2013<br>HK\$'000 |
|---|------------------|------------------|

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2014

## 28. FINANCIAL RISK MANAGEMENT AND FAIR VALUE MEASUREMENTS (continued)

### 28.2 Foreign risk factors

Exposure to market risk (including foreign exchange, interest rate and price risks), credit risk and liquidity risk arises in the normal course of business. The risks are minimised by the financial management policies and practices described below:

#### 28.2.1 Market Risk

(i) Foreign exchange risk

Foreign exchange risk mainly arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations.

The management of the Group considers the foreign exchange risk of the Group is not significant, and thus does not have any active policies to hedge against the foreign exchange risk.

(ii) Price risk

The Group is not exposed to significant price risk.

(iii) Interest rate risk

Interest rate risk relates to the risk that the fair value or cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group does not have any significant exposure to interest rate risk as the Group currently has no financial assets and liabilities with floating interest rates.

#### 28.2.2 Credit risk

The Group has no significant concentrations of credit risk. It has policies in place to ensure that credits are granted to customers with an appropriate credit history.

In addition, the Group reviews the recoverable amounts of each individual trade debt at the end of each reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. The Group has maintained relationship with various financial institutions and has policies that limit the amount of credit exposure to any financial institution.

#### 28.2.3 Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities. The Group regularly reviews its major funding positions to ensure that it has adequate financial resources in meeting its financial obligations.

The Group's financial liabilities principally comprise bank borrowings, trade payables and other financial liabilities included in other payables and accruals, all of which are expected to be settled within one year and are included in current liabilities. As at 31 March 2014, the Group did not have any derivative financial liabilities (2013: Nil).

The Group's and the Company's non-derivative financial liabilities due within 12 months equal their carrying balances as the impact of discounting is not significant.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2014

### 28. FINANCIAL RISK MANAGEMENT AND FAIR VALUE MEASUREMENTS (continued)

#### 28.3 Financial assets and liabilities measured at fair value

As at 31 March 2014 and 2013 and during the year ended 31 March 2014, the Group did not have any financial assets and liabilities measured at fair value.

#### 28.4 Fair value of financial assets and liabilities carried at other than fair value

The carrying amounts of the financial instruments carried at amortised cost are not materially different from their fair values as at 31 March 2014 and 2013.

### 29. CAPITAL MANAGEMENT

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for equity holders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to equity holders, return capital to equity holders, issue new shares or reduce debt.

The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as a percentage of bank borrowings and long-term debts over total equity. Total capital is calculated as 'equity', as shown in the consolidated statement of financial position.

As at 31 March 2014, the Group's gearing ratio was Nil (2013: 0.32 times).
